

CONSERVATIVE

DFA

As of 9/30/2018

40% Stocks and 60% Bonds

The Global Portfolio Series is guided by Loring Ward’s Asset Class Investing philosophy, a strategic, asset class investment approach based on the research of some of the academic community’s most innovative and respected thinkers and economists. Grounded in the knowledge that asset allocation has the greatest impact on investment returns, Asset Class Investing is designed to carefully control the investments included in each asset class, giving investors truer market returns than similar strategies will.

The DFA Funds Global Portfolio Series is built with 9 asset class funds, offered by noted institutional money manager, Dimensional Fund Advisors, and typically include as many as 9000 Securities from 45 Countries, representing 35 Currencies.

The objective of the Conservative portfolio is to provide capital preservation and limited growth by investing in a portfolio of primarily bonds with some stocks. It is designed for those who have a lower tolerance for portfolio fluctuations. The investment time horizon is typically 3 to 5 years or more.

Credit Qual Not Rated %	0.0

Credit Quality Rating: Globally, credit rating from Fixed Income Survey provided by fund company: Government, AAA, AA, A, BBB, BB, B, Below B and Not Rated. AAA bonds carry the highest credit rating. For the purpose of Morningstar’s calculations, U.S. government bonds are considered AAA. For municipal bonds, anything at or below BBB is considered a high-yield or junk bond. Nonrated municipal bonds generally are classified as BBB. Other nonrated bonds generally are considered B.

Portfolio Snapshot

Inception Date	10/1/1996
Average Price-To-Book Ratio	1.67
Average Market Cap (mil.)	17,011

The Price-To-Book ratio of a company is calculated by dividing the market price of its stock by the company’s per-share book value.

Equity Style Box

The Morningstar equity style box shows the percentage of portfolio holdings in each of the nine equity styles. Classification is based on market capitalization and value-growth orientation of the stock holdings.

* Based on operating expenses as reported in the Prospectus
 The Advisor has contractually agreed to waive certain fees, including management fees, and in certain instances, assume certain expenses of the Portfolios.
 The Fee Waiver and/or Expense Assumption Agreement for the Portfolios will remain in effect through February 28, 2016, and may not be terminated by the Advisor prior to that date.

Performance information

Growth of a Dollar: Hypothetical value of \$1 invested on model inception date and kept invested through the most recent report date. Assumes reinvestment of income and no transaction costs or taxes. Investors cannot invest directly in an index. Indexes are unmanaged and reflect reinvested dividends and/or distributions, but do not reflect sales charges, commissions, expenses or taxes.
 The performance data quoted represents past performance. Past performance does not guarantee future results and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance information quoted. To obtain current month end performance information please call, toll free, 1-800-366-7266. Investing in mutual funds involve risks, including the loss of principal.
 Portfolio returns are the weighted average returns of the respective funds, rebalanced annually. Actual rebalancing may be different. The portfolio allocations are based on a Loring Ward model portfolio, which may not be suitable for all investors. It may not reflect the impact material economic and market factors might have had on decision making if clients' money were actually being managed at that time. The performance quoted reflects the reinvestment of dividends and capital gains distributions. Portfolio returns are after fund's internal expenses and Loring Ward's max investment management fee of 0.90% for all periods prior to April 1, 2017 and of 0.65% after April 1, 2017. Management fee may be lower depending on the assets under management. Portfolio performance does not reflect the deduction of any fees charged by an independent investment advisor or other service provider to an individual account. Such fees, if taken into consideration, will reduce the performance quoted above. The model performance information reflects various allocation changes made over time. Therefore the underlying mutual funds used in calculating the portfolio performance may not represent the trailing returns of portfolios and/or the mutual funds currently available.

Risk information

Stock investing involves risk including loss of principal. Securities of small companies are often less liquid than those of large companies. As a result, small company stocks may fluctuate relatively more in price. International and emerging market investing involves special risks such as currency fluctuation and political instability, and may not be suitable for all investors. Bonds (fixed income) are subject to market and interest rate risk if sold prior to maturity. Bond values will decline as interest rate rises, issuer's creditworthiness declines, and are subject to availability and changes in price. REIT investments are subject to changes in economic conditions and real estate values, and credit and interest rate risks.

Dimensional Fund Advisors is an investment advisor registered with the Securities and Exchange Commission and is unaffiliated with LWI Financial Inc. Consider the investment objectives, risks, charges and expenses of the funds listed carefully before investing. The prospectus and if available, summary prospectus, contain this and other information about the funds.
