Investing involves risk, principal loss is possible. Bonds are subject to risks, including interest rate risk which can decrease the value of a bond as interest rates rise. Investing in foreign securities may involve certain additional risks, including exchange rate fluctuations, less liquidity, greater volatility and less regulation.

The Financial Times and Stock Exchange World Government Bond 1-5 Year Currency Hedged U.S. Dollar Index (FTSE WGBI 1-5 Yr Hdg USD) is a comprehensive measure of the total return performance of the government bond markets of approximately 22 countries with maturities ranging from one to five years. It is hedged to the U.S. Dollar. This Index is unmanaged and reflects reinvested dividends and/or distributions, but does not reflect sales charges, commissions, expenses or taxes. An individual cannot invest in an index.

An investor should consider the Fund's investment objectives, risks, charges and expenses carefully before investing or sending money. This and other important information about the investment company can be found in the Fund's Prospectus. To obtain a prospectus or performance data current to the most recent month-end, please contact your financial advisor, call (844) 366-0905 or visit sa-funds.com. Please read the prospectus carefully before investing.
