

SA WORLDWIDE MODERATE GROWTH FUND

As of 9/30/2018

Fund Goal

The Fund's goal is long-term capital appreciation and current income with a greater emphasis on long-term capital appreciation. The Fund pursues its investment objective by investing in other mutual funds ("Underlying SA Funds") managed by LWI Financial Inc. (Loring Ward) comprising various asset categories and strategies.

Loring Ward has established an asset allocation target for the Fund. This target is the approximate percentage of the Fund's assets that will be invested in equity investments and fixed income investments. Under normal market conditions, the Fund currently expects that it will invest approximately 75% of its assets in equity investments and approximately 25% of its assets in fixed income investments as represented by the holdings of the underlying SA Funds in which the Fund invests. For a complete description of the Fund Objective, refer to the fund prospectus.

Fund Characteristics

The performance quoted represents past performance. Past performance does not guarantee future results. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed may be worth more or less than their original costs. The performance illustrated reflects fee waivers and/or expense reimbursements. In the absence of these waivers and/or reimbursements, the performance would have been lower.

An investor should consider the Fund's investment objectives, risks, charges and expenses carefully before investing or sending money. This and other important information about the investment company can be found in the Fund's Prospectus. To obtain a prospectus or performance data current to the most recent month end, please contact your financial advisor, call (844) 366-0905 or visit safunds.com. Please read the prospectus carefully before investing.

The Worldwide Moderate Growth Composite Index benchmark is comprised of the following indices: 75% MSCI ACWI Investable Market Index (IMI) (net div.) and 25% BoA Merrill Lynch 1-3 Years U.S. Corporate & Government Bond Index. The MSCI ACWI IMI (net div.) is an unmanaged capitalization-weighted index that captures the large, mid and small cap equity market representation across 23 Developed Markets and 23 Emerging Markets countries. It contains over 8,700 constituent securities covering approximately 99% of the global equity investment opportunity set. The BoA Merrill Lynch 1-3 Years U.S. Corporate & Government Bond Index is an unmanaged capitalization-weighted index that tracks the performance of fixed coupon U.S. dollar denominated investment grade debt publicly issued in the U.S. domestic market, including U.S. Treasury, U.S. agency, foreign government, supranational and investment grade corporate bonds that have at least one year, and less than 3 years, remaining to final maturity. Investors cannot invest directly in an index. Indexes are unmanaged and reflect reinvested dividends and/or distributions, but do not reflect sales charges, commissions, expenses or taxes.

Investing in foreign securities may involve certain additional risk, including exchange rate fluctuations, less liquidity, greater volatility and less regulation. Small company stocks may be subject to a higher degree of market risk than the securities of more established companies because they tend to be more volatile and less liquid. Bonds are subject to risks, including interest rate risk which can decrease the value of a bond as interest rates rise. REIT investments are subject to changes in economic conditions and real estate values, and credit and interest rate risks. This information is not intended to be used as the primary basis for investment decisions, nor should it be construed as advice designed to meet the particular needs of an individual investor.

†Total Annual Fund Gross Operating Expenses: 1.39%. Loring Ward (the Adviser) has contractually agreed to waive fees and/or reimburse expenses so that the Fund's total annual operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses and extraordinary expenses) do not exceed the total annual acquired fund fees and expenses related to the Fund's investments in the Underlying SA Funds, any other investment companies advised or sub-advised by the Adviser, or any money market fund. This expense limitation will remain in effect until July 1, 2025 and may be amended or terminated before such time only with the approval of the Board of Trustees of the Fund.
