

## SA INTERNATIONAL SMALL COMPANY FUND

Select

As of 9/30/2018

The Fund's goal is to achieve long-term capital appreciation. Instead of buying securities directly, the Fund invests substantially all of its assets in another mutual fund, the International Small Company Portfolio of DFA Investment Dimensions Group Inc. (the "DFA Portfolio"), which has the same investment objectives as the Fund. The DFA Portfolio invests its assets in the following series of The DFA Investment Trust Company, each of which is a mutual fund (the "Underlying Funds"): The Japanese Small Company Series, The United Kingdom Small Company Series, The Continental Small Company Series, The Asia Pacific Small Company Series, and The Canadian Small Company Series. Dimensional periodically determines the allocations of the DFA Portfolio's investments among the Underlying Funds and may change the allocations from time to time.

The past performance information shown is for Investor Class shares. Although Investor Class shares would have similar annual returns to Select Class shares because the classes are invested in the same portfolio of securities, the returns for Select Class shares will vary from Investor Class shares because of the lower expenses paid by Select Class shares. Performance information for Select Class shares will be included after Select Class shares have been in operation for one complete calendar year.

The performance quoted represents past performance. Past performance does not guarantee future results. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed may be worth more or less than their original costs. The performance illustrated and net expense ratio listed reflects fee waivers and/or expense reimbursements. In the absence of these waivers and/or reimbursements, the performance would have been lower.

\*The Adviser has contractually agreed to waive its management fees and/or to reimburse expenses with the effect that: (1) the Select Class shares' total annual operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses and extraordinary expenses) are 0.20% lower than the Investor Class shares' total annual operating expense ratio after fee waiver and/or expense reimbursement; and (2) the Select Class shares' total annual operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses and extraordinary expenses) will not exceed 0.55%. This expense limitation will remain in effect until October 28, 2021 and may be amended or terminated before such time only with the approval of the Board of Trustees of the Fund.

**Investing involves risk, principal loss is possible. Investing in foreign securities may involve certain additional risks, including exchange rate fluctuations, less liquidity, greater volatility and less regulation. Small company stocks may be subject to a higher degree of market risk than the securities of more established companies because they tend to be more volatile and less liquid. Duplication of expenses is a risk when a fund invests in other investment companies. The cost of investing in the Fund, therefore, may be higher than the cost of investing in a mutual fund that invests directly in individual stocks and bonds.**

The MSCI World Ex. U.S. Small Cap Index (MSCI World Ex USA Small Cap NR USD) is a market capitalization weighted index designed to measure equity performance in 23 global developed markets, excluding the U.S., and is composed of stocks, which are categorized as small capitalization stocks. This index is unmanaged and reflects reinvested dividends and/or distributions, but does not reflect sales charges, commissions, expenses or taxes. An individual cannot invest in an index.
